DATA RETENTION & DISPOSAL POLICY

1. PURPOSE

To ensure that all employees are aware of and comply with legal and regulatory requirements for retaining, or disposing of data about our tenants, applicants for housing, customers, suppliers, employees, agents, volunteers or board members. Premature disposal can mean the loss of information that is critically required; while retaining data can expose the Group to risk as well as be a cost to the business. Keeping hard copy records takes up both valuable time and resources. This document explains the requirements to retain and dispose of data and provides guidance on appropriate data handling and disposal. It complements the Groups separate Policies and Procedures on Data Protection; Data Management; and Confidentiality.

2. SCOPE

This document covers all types of data held in a structured filing system that the Group holds or have control over, including physical data such as hard copy documents, contracts, notebooks, letters and invoices. It also includes electronic data such as emails, electronic documents, audio and video recordings and CCTV recordings. It applies to both personal data and non-personal data. It also applies to data held by third parties that the Group use on our behalf, such as cloud storage providers or offsite records storage.

3. DATA PROTECTION

The Data Protection Act (DPA) 2018 came into force in May 2018 to replace the previous Data Protection Act 1998. The DPA 2018 is the UK's implementation of the General Data Protection Regulation (GDPR). The 2018 Act modernises data protection laws in the UK to make them fit for purpose for our increasingly digital economy and society.

Everyone responsible for using personal data has to follow strict rules called 'data protection principles'. You must make sure the information is:

- used fairly, lawfully and transparently
- used for specified, explicit purposes
- used in a way that is adequate, relevant and limited to only what is necessary
- accurate and, where necessary, kept up to date
- kept for no longer than is necessary
- handled in a way that ensures appropriate security, including protection against unlawful or unauthorised processing, access, loss, destruction or damage.

Please see the Group's separate guidance on data protection for more detailed discussion.

4. DATA STORAGE

Where possible data should be stored electronically and must allow the information to be presented in a readable format and be readily convertible to a paper format if required. HM Customs and Excise has particular requirements relating to electronically stored data and has the power to withdraw approval in any individual case. It is advisable to obtain legal advice on the admissibility of electronically formatted documents for presentation in a court of law. Where data is required to be kept in hard copy format, all personal and confidential data should be kept secure and locked away when not in use.

5. DATA RETENTION

Data should only be kept for as long as is necessary and the method of disposal should be appropriate to the confidentiality of the information. The principal documentation related to our core services, is listed in Appendix 1. Data Retention Schedule, together with details of statutory retention periods; recommended retention periods; and suggested action at the end of the retention period. There are several cases where the Recommended Retention Period exceeds the Statutory Period, this reflects guidance by the National Housing Federation that, in the specific circumstances of housing associations, it may be appropriate or prudent to retain documents for longer than the minimum period by law and should be followed where deemed necessary. Specific guidance for our non-housing related services can be found in Appendix 2. CQC Retention Guidance; and Appendix 3. DWP Retention Guidance.

Where electronic data is not required for active processing but must be retained for legal or regulatory purposes it should be archived for electronic storage, this can be done by logging a ticket on the ICT HelpDesk. Files are reviewed by the ICT team every 6 months and any electronic files that have not been accessed for 5 years are automatically archived. Access to electronically archived files can be arranged by logging a ticket on the Helpdesk. Where hard copy data is not required for active processing but needs to be retained, it should be archived for storage by our offsite document storage contractor, please see the Archiving Procedure for more information.

6. SECURE DISPOSAL

Electronic data will be securely disposed of using the ICT Protocols for the system in which the data is retained. Hard copy data that is no longer necessary and does not need to be archived, is securely disposed of using the designated Confidential Waste secure lockable bins located onsite, and hard copy documentation that has been archived and is stored offsite at an archive facility will be securely destroyed on the destruction date, by the Archiving contractor. A Certificate of Destruction is issued for all securely destroyed documents. Our Confidential Waste and Archiving service provider are UKAS accredited ISO 9001 incorporating EN 15713 registered.

22. Resident Meetings								
22.1	Resident Meetings	Resident Meeting Minutes	From date of meeting	N/A	6 years	Securely Destroy	ICSA recommended	Best practice

Appendix 2 - CQC Guidance on Record Keeping

Health and Social Care Act 2008 (Regulated Activities) Regulations 2010

Regulation 20 – Records

(1) The registered person must ensure that service users are protected against the risks of unsafe or inappropriate care and treatment arising from a lack of proper information about them by means of the maintenance of:

- (a) an accurate record in respect of each service user which shall include appropriate information and documents in relation to the care and treatment provided to each service user; and
- (b) such other records as are appropriate in relation to—
 - (i) persons employed for the purposes of carrying on the regulated activity, and
 - (ii) the management of the regulated activity

(2) The registered person must ensure that the records referred to in paragraph (1) (which may be in paper or electronic form) are—

- (a) kept securely and can be located promptly when required;
- (b) retained for an appropriate period of time; and
- (c) securely destroyed when it is appropriate to do so

Part A of Section 21 of The Essential Standards of Quality and Safety published by the Care Quality Commission in December 2009 contains the following guidance:

People who use services can be confident that their personal records for their care, treatment and support are properly managed because:

- The service has clear procedures that are followed in practice, monitored and reviewed, to ensure personalised records and medical records are kept and maintained for each person who uses the service.
- Records about the care, treatment and support of people who use services are updated as soon as practical.
- Verbal communications about care, treatment and support are documented within personal records as soon as is practical.
- Records about care, treatment and support are clear, factual and accurate and maintain the dignity and confidentiality of the people who use services.
- Records are securely stored and transferred internally between departments and externally to other organisations, when required.
- Protocols exist with other organisations for secure information sharing.
- Records about people who use services are used to plan appropriate care, treatment and support to ensure their rights and best interests are protected and their needs are met.
- The record of the current interaction is linked with any previous records that exist for that person, whenever the service is able to reliably identify the person.

- They, or others acting on their behalf, and relevant staff, are aware of and can access, and where appropriate, contribute to the record.
- They are assured that safe and secure records management arrangements will continue to be in place for the legally required period should the registered provider close operations.
- Where a request for access to a record is made, all legislation and guidance in respect of Freedom of Information Act 2000 and the Data Protection Act 1998 is followed by all staff.
- Wherever they are relevant to the service, **the following records are kept and for the periods of time stated:**
 - risk assessments; retain the latest risk assessment **until a new one replaces it**
 - purchasing excluding medical devices and medical equipment; **18 months**
 - general operating policies and procedures; retain the current version and previous version for **three years**
 - any incidents, events or occurrences that require notification to the Care Quality Commission; **three years**
 - use of restraint or the deprivation of liberty; **three years**
 - detention; **three years**
 - maintenance of the premises; **three years**
 - maintenance of equipment; **three years**
 - electrical testing; **three years**
 - fire safety; **three years**
 - water safety; **three years**
 - medical gas safety, storage and transport; **three years**
 - money or valuables deposited for safe keeping; **three years**
 - staff employment; **three years following date of last entry**
 - duty rosters; **four years after the year to which they relate**
 - purchasing of medical devices and medical equipment; **11 years**
 - final annual accounts; **30 years**

Appendix 3 - DWP Guidance on Record Keeping

Extract from DWP Provider Guidance Chapter 11, - ESF Requirements (England Only)

Document Retention

6. There are specific rules that apply to the retention of documents; these are detailed at paragraph 12. Documents must be retained until at least 31 December 2022; you will be updated should this date be changed at any stage in the future. The list of documents that must be retained detailed at paragraph 15 may not be completely exhaustive and could be subject to further review in the future.

7. Where an organisation within your supply chain ceases to trade or is no longer doing business with you, it is your responsibility to recover all relevant and original documents held by the sub-contractor. Those documents are, as specified in the table at paragraph 15 and must be retained for the full retention period i.e. until at least 31 December 2022 (in England).

8. Where you cease to trade or will no longer be doing business with DWP you should discuss retention of documents with your DWP Account Manager.

Electronic Document Retention

9. European Commission regulations allow for documents to be retained as either the original paper copies or as an electronic copy of the originals. The regulations allow for the electronic storage of documents provided that they are stored on a recognised data carrier (e.g. CD ROM, Hard Disk or Magnetic Disk), are certified as being copies of the original, meet national standards and are auditable. Documents must be held on an accepted data carrier. These include:

- microfiches of original documents; and
- electronic versions of original documents on data carriers

10. For each data carrier used, you must retain a signed declaration that the documents held within the data carrier are certified as being true copies (conforming to) the originals. The ESF Declaration on headed paper satisfies this requirement.

11. Minimum requirements associated with completion of the declaration are:

- all declarations must be made available on request;
- documents can be certified as true copies of the original document either individually or as a group of documents; however a declaration will be required each time documents(s) are copied and retained for audit purposes;
- the declaration can be kept as an electronic or paper copy. The declaration can be included on the electronic copy of the documents and stored electronically. If the document(s) are certified using a paper copy it is extremely important that it is stored with the appropriate stored data carrier;
- electronic copies of original documents must be kept for the same length of time as paper copies. For further information on Document Retention see paragraph 6;
- the signature can be original or an electronic signature;
- the electronic copies must be reliable for ESF and DWP audit purposes through to 31st December 2022. For example, they must be:
 - stored in such a way that they are safe and cannot be modified;
 - can be effectively retrieved; and

- accessible in a readable format.

NB DWP and The National Archives recommend that electronically held data is migrated onto new formats every 5 years to ensure the data remains readable and usable.

Retained Documentation

12. You must ensure that you have robust systems and controls in place to maintain and monitor access to documentation throughout the retention period.

13. All documents (including any electronic information) must be readily accessible to requests from auditors and DWP upon request and stored in accordance with DWP standards. To support audit activity, it is recommended that a separate file of documentation for each individual participant is linked to a specific Contract Package Area number; and arranged in a filing system that will enable the effective retrieval of documentation.

14. Audits will scrutinise down to the level of an individual participant. Documentation must show that payments claimed in respect of an individual participant were eligible in accordance with the contract terms and conditions. The participant file, either in hard copy or electronic format, must also contain evidence that the participant was made aware that the provision is part funded by ESF.

15. The table below lists the documentation that must be retained as a minimum to meet audit requirements until at least 31 December 2022.

No.	Document/Information
1	Evidence of the 2 way conversation/action planning to support the Attachment Fee payment as detailed in Work Programme Guidance
2	Participant Action Plan or Development Plan
3	Sustainable Development Policy and Action Plans
4	Sustainable 'Health' Action Policy and Plans (London)
5	Equality and Diversity Policy and Action Plans
6	Marketing and Publicity documents including Marketing/Communication plans and products produced to promote ESF to participants
7	Supporting information for job and sustainment claims as detailed in programme specific guidance
8	Supporting information to validate the agreed Progress Measures as detailed in the ESF Families with Multiple Problems Guidance Chapter 6 – Attachments, Payments and Evidence Requirements
9	Evidence to support the assessment and decision on eligibility for the ESF Families with Multiple problems programme secondary referral route
10	Document Retention Policy and Plan

16. You should have submitted a document retention policy and plan to your DWP PM within 4 weeks of the contract starting. This will be monitored and reviewed by your Performance Manager.
